SHARE IN THE SPIRIT - N/AAN KU SÊ LODGE & WILDLIFE SANCTUARY ACTIVITIES 2022

Let us show you the best of N/a'an ku sê Lodge & Wildlife Sanctuary. Our professional guides are highly experienced. Speak to the lodge reception to pre-book an activity at N/a'an ku sê Lodge.

Share in our ethics...

Welcome to N/a'an ku sê Lodge and Wildlife Sanctuary – a place of peace and a second chance for so many animal species.

The N/a'an ku sê Foundation is home to several cheetahs and other magnificent carnivores that can never be released back into the wilds of Namibia, due to being human imprinted – a factor that would significantly reduce their survival chances in the wild. The reasons for them being human imprinted are manifold – many were kept as pets or came to N/a'an ku sê as cubs orphaned at birth.

At N/a'an ku sê we have a clear policy that does not allow the petting nor touching of any of the cheetahs or caracals during walks, and that any pictures taken should be of the animals ONLY. This of course also encompasses the taking of “selfies” with the animals – extremely tempting, but detrimental to the ethics of the N/a'an ku sê Foundation.

Images of humans together with wild animals, no matter how habituated those animals may be, promotes that which the N/a'an ku sê Foundation strives to prohibit – exotic pet trade, exploitation of wild animals and the erroneous implication that a research based sanctuary facility is little more than a petting zoo. Failure to comply with our **NO HUMANS IN PHOTOGRAPHS WITH CHEETAHS OR OTHER CARNIVORES policy WILL result in the activity being immediately stopped!**

Full Carnivore Feeding Tour:

During the course of this drive you will visit our senior baboons, caracals, lions, cheetahs, African wild dogs and leopards. Watch them being fed by our experienced guides and listen to their stories. The scenic route that takes you to our magnificent carnivores lends the opportunity of spotting some of the free-roaming reserve animals. This is not just a great way to learn about these amazing animals, it is also a unique up close photographic opportunity. A superb introduction to conservation and the work we do here at N/a'an ku sê.

Cheetah Experience:

Habituated cheetahs have lost their fear of humans – a fear that is crucial in elevating their survival chances in the wild. For this reason, some of the magnificent spotted sprinters at N/a’an ku sê need to remain in captivity, having come to the sanctuary from various conflict situations at very young ages, requiring dedicated care to ensure their survival. At N/a’an ku sê we fully nurture and encourage their natural behaviour, captivity resembling the life of their wild counterparts as closely as possible. Enjoy time with our habituated big cats, in the hands of an experienced and knowledgeable guide. Simply not to be missed!
